

haid-tec terrace cleaner Application

For manual cleaning

- 1 depending on the pollution
For maintenance cleaning:
Add 60-100 ml to a 10L bucket

For intensive cleaning:
Add 100-500 ml to a 10L bucket

- 2 **Distribute the cleaning water on the floor covering**, work on mechanically with a scrubber, better with a haid-tec melamine hand pad with a handle joint.

- 3 **Remove the dirty water with a scraper** and wipe the floor covering with fresh water.

For cleaning with a cleaning machine

- 1 Dose the terrace cleaner into the machine with a dosage of 60-100 ml per 10 liters of water.

- 2 Equip the cleaning machine with a **haid-tec PolyPlusPad** for daily cleaning or a **MelaminPlusPad** for intensive cleaning **instead of a conventional brush**.

- 3 **In the case of stubborn stains, apply a 1+5 mixture**, leave to work for one minute, drive off with the machine (fresh water in the tank) and remove the dirty water.
