

haid-tec MonoMelaminPad

Good result, good price

The haid-tec MonoMelaminePads are suitable for one-time basic cleaning with the single-disc machine and can be used on mineral floor coverings, porcelain stoneware tiles, PVC, vinyl, linoleum and rubber.

Composition

The haid-tec MonoMelaminePads are made of native, thermally compressed German melamine resin foam. Since they are not glued or pressed together, unlike the MelaminPlusPads, they have a significantly shorter service life of two days and are suitable for single use.

Benefits and performance

- Very good cleaning results on mineral and elastic floor coverings
- Use: basic cleaning and special cleaning
- Can be used with all common cleaning agents

Very good cleaning performance
Very good cleaning results on mineral and elastic floor coverings

Reduction of chemical use
Saves on cleaning chemicals, as MonoMelaminePads produce very good cleaning results even with just water

INEXPENSIVE
For one-time use at a low unit price
