

haid-tec MelaminPlusPad®

Optimal result, less effort!

MelaminPlusPads have been specially developed for cleaning **mineral floor coverings, porcelain stoneware tiles, natural stone, concrete block and structured surfaces.**

Composition

The haid-tec MelaminPlusPads consist of a **special material composition** and thus enable an **excellent mechanical cleaning performance.** After several years of research, we have succeeded in **refining** and **pressing** high-quality melamine resin foam and selected additives using special adhesives in such a way that extremely high tensile strength and service life are achieved. This results in completely new application possibilities.

Benefits and performance

- Excellent mechanical cleaning results
- Use: Basic cleaning, maintenance cleaning and special cleaning
- New condition of floor covering can be preserved to the greatest possible extent
- Long service life of approx. 10,000 square metres per pad
- Floor coverings can be cleaned with little effort and time
- Easy to use with all common cleaning agents

EFFECTIVE ON NUMEROUS TYPES OF FLOOR COVERINGS

Excellent cleaning results on mineral and elastic floor coverings.

IMMEDIATE COST SAVINGS

Impressive service life. The use of chemicals can be reduced in most cases. Basic cleaning can be avoided.

ENVIRONMENTALLY-FRIENDLY

Re-use / recycling of German melamine resin foam. Reduction of aggressive chemicals.

INNOVATION

Continuous further development and adaptation of the pads to customer requirements as well as new machine trends
 Prototypes and special productions.

ON-SITE CONSULTING / SERVICE

We would also be pleased to arrange a consultation appointment with you on-site to clarify object-specific concerns
